

Faith Leaders Urge the Senate to Act Now to Protect Haitian TPS Families

Letter from Faith in Action, the Haitian Evangelical Clergy Association, and 610 clergy

April 20, 2026

Dear Senate Majority Leader Thune, Senate Minority Leader Schumer, Senate Judiciary Chair Grassley, and Senate Judiciary Ranking Member Durbin:

As religious leaders from across the United States, we write on behalf of tens of thousands of our Haitian members with Temporary Protected Status (TPS), as well as families who depend on Haitian caregivers and communities and businesses that prosper because of their hard work and civic contributions.

Allowing DHS to proceed with terminating Haiti TPS would strip more than 350,000 people of legal status and expose them to detention in inhumane conditions and deportation to a country that is among the most dangerous in the world, a country that the State Department warns people not to travel to for any reason.

Now that the House has passed bipartisan legislation extending Haiti TPS for 36 months, we urge you to act immediately to pass this life-and-death measure. We call on Senate leadership to bring this measure to the floor and on every Senator to put the lives of these families above partisan politics.

DHS Secretary Kristi Noem patently violated the TPS statute by declaring that Haiti was safe for nationals to return to, without reviewing conditions there and despite overwhelming evidence to the contrary. Congress has an opportunity to take action now to correct this error and avoid the moral and humanitarian catastrophe of deporting Haitian families back to a country where more than 1.4 million people have been displaced by rampant gang violence.

As people responsible for the well-being of communities and the moral tenets of all of our faith traditions that uphold the sacredness and dignity of human life, we urge you to act without delay.

Faith in Action Haitian Evangelical Clergy Association
